

Letter to MEDPAK celebrating 20 Years

Congratulations to MEDPAK for 20 years of inspiring and life changing work.

I first became aware of MEDPAK in 1995, when my friend and colleague, Ann Norris, went out to Librazhd to support their work. Throughout her year there, Ann sent letters informing us at The Sheffield College of the initiatives that were being made, in the most difficult of circumstances...training teachers and parents, developing equipment and sharing materials.

When Ann returned to England, we were honoured to have Zela visit the college to get first-hand knowledge of good practice.

Since 1995 Ann has kept me informed of MEDPAK's activities, and when I retired in 2010 I was able to visit Albania and see the difference MEDPAK has made for myself...the centres, the teachers and above all the children. The progress that has been made in these years is amazing.

MEDPAK is successful because of the commitment, dedication and above all humanity of its members.

In addition, it has provided me with a personal and valued friendship with the Koka family.

Have a great celebration, you deserve it...

Christine Martin

Ex Senior Manager, Sheffield College, England.
